辅助编码

AUXILIARY CODE

U - 1

辅助编码序列号的前两个字符，第一个字符表示生产年份，年份是按字母顺序依次编码。字母顺序（有时存在字母跳跃）取决于UL认证规则、生产、产品型号。请参考铭牌标签的辅助编码和生产年份进行对应。

The auxiliary code is the first two characters in the serial number. The first character indicates the production year. Years progress or regress in alphabetical order. The series of letters and skipped letters depend on UL listing, production, and model. See the auxiliary code(s) and corresponding year(s) on the front cover.

第二个字符表示在同一生产年份内产品发生了显著的变化，从“1”开始，依次进行变化；如果在1年中产品没有显著的变化，此号码从“0”开始。

The second character indicates significant part changes within the same year. Base is "1" and this number advances for each change.

If there is no significant part change at the turn of the year, this number starts from "0."
